Acker Merrall & Condit is America's oldest wine shop, established in 1820. Today it is a multi-faceted ' wine operation,' involved in all the aspects of bringing the finest wines in the world to their end consumer, whether it be through retail, auction or drinking them at private events. This synergetic approach has catapulted them to the forefront of the American fine wine industry, a movement led by their independent involvement in the auction business, where they remain amongst the leaders in the overall market, grossing more than Christie's or Sotheby's in each of the last three years. Their hands-on, customer service-oriented approach has made them stand apart from the competition and maintain a loyal base of high net-worth clients.
